

# ISAP Day Agenda – January 10, 2016

## Location: Scarlet Oak (Mezzanine)/Marriott Marquis

### 8:30am – 9:00am Welcome and Review of ISAP activities by Board of Directors

- Introduction – Jean-Pascal Planche (ISAP vice Chair)
- ISAP activities summary: Gabriele Tebaldi (ISAP Chair)
- ISAP events coming up in 2016

### 9:00am – 11:30pm Constitutive Modeling of Asphaltic Materials (CMAM) Technical Committee – Chair: Tom Scarpas

- TC dealing with Low Energy Mixes, Water Induced Damage in Asphaltic Mixes, Constitutive Modeling of Asphaltic Mixes, Pavement Interlayer Systems, Surface Properties, Chemo-Mechanics of Bituminous Materials
- 2016 Session Topics: ***“Moisture: the journey from damage to resilience”*** – Session chair: Tom Scarpas.
- Other items

### 11:30pm – 12:30pm Lunch break

### 12:30pm – 2:30pm Asphalt Pavements and Environment (APE) Technical Committee – Chair: Manfred N. PARTL - Gabriele Tebaldi

- TC dealing with Cold recycling technologies and mix design, New innovative Technologies and LCA
- 2016 Session topics: ***“Resilient pavements. Pavements able to resist to extreme climatic events”*** – session Chairs: Manfred N. Partl and Gabriele Tebaldi
- Other items:
  - Summary of the 3rd international Conference on Asphalt Pavements and Environment
  - Information on the next APE conference.

### 2:30pm – 4:30pm Pavement Field Evaluation (PFE) Technical Committee – Chair: Eshan Dave

- TC dealing with Pavement Field Evaluation Methods, such as accelerated pavement testing, non-destructive evaluation (deflection testing, surface wave propagation methods, GPR) and surface characterization (friction and roughness)
- 2016 Session Topics: ***“Full-Scale Pavement Evaluation for Improving Asphalt Performance”*** – Session chair: Navneet Garg from Federal Aviation Administration.
- Other items:
  - Information on working group formation
  - Proposed activities
