

3rd International Symposium on Asphalt Pavements & Environment

16 AUGUST 2015, SUN CITY, SOUTH AFRICA

3RD INTERNATIONAL SYMPOSIUM

ISAP 2015

On Asphalt Pavements & Environment

Latest news on programme development

ISAP offers a forum through its Technical Committee TC APE, for international asphalt pavement technology boost, driven by material performance, economics and environmental considerations. ISAP TC APE also aims to dovetail with [CAPSA 2015](#), bringing an international perspective of research and development, with creative, sustainable solutions for flexible pavements

The 3rd ISAP APE will focus on recycled materials for use in hot or cold applications, including a speciality session on **COLD RECYCLING!**

In addition, there will be interactive sessions on new technologies and innovations including higher performance materials, testing and evaluation techniques, as well as energy harvesting.

Symposium Chairmen: Kim Jenkins, Lucas Ebels, Manfred Partl, Gabriele Tebaldi

Come and be a part of ISAP's one day stimulating symposium!
